

Surplus Property **NEWSLETTER**

MARCH 2002

AMERICA – UNITED WE STAND

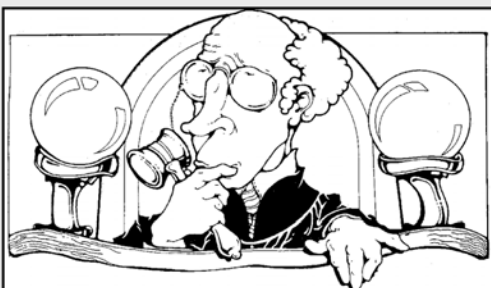

WEB PAGE UPDATE

In our last newsletter, we told you that there were some web page updates coming your way. At this time, all but one of them has been implemented.

You can now go to our web site (the address is listed below) and not only see our inventory, but also see a copy of the current newsletter, photos of some featured property and use the link to the electronic auction service Bid4assets.com. They are the service we use to place certain state property up for public auction. We're just getting started with them. When we place something with them that's listed in the newsletter, we'll make a note of it so you will know where to look for it. This month a Ford 2000 with a factory installed scoop/loader and a Massey Ferguson 285 are up for bids.

Still coming on the website will be direct catalog shopping for law enforcement organizations through the federal purchasing agreement. Alan Brinkman, property specialist will be handling this program. He is currently working hard at getting this program out of the starting block.

If you are in law enforcement, give Alan a call and check out the new programs.

1. Surplus property must be used in an authorized program.

2. Personal use or non-use of surplus property is not allowed.
3. Permission must be obtained before selling, trading or cannibalizing surplus property.
4. Read the back of your invoice - ***UNDERSTAND YOUR OBLIGATION!***

FRIENDLY REMINDER

Most of you are aware of our payment procedures. However, we have recently added several new donees and we think we need to go over the payment procedures again. We will ONLY accept a check written on your organization checks. You can give us the check when you receive your property, or when you're billed. We prefer to bill you and receive your check. The Feds prefer this method because it gives them a complete paper trail.

We cannot accept cash, personal checks, money orders, or bank drafts. As funny as it sounds, the Federal Regulations Manual will not allow any of these. Their thinking is that these methods of payment will make it easier for someone to improperly receive property for personal use.

So, while it may seem unnecessary to you, please remember that this is the method of payment we are required to accept, and not something we invented to make your life more confusing.
